

# Custom Menu Enhancer (Pro 5, 6, 6.5, 7.x VFP, 7.x SQL)

Have you run out of room on your custom menu pad? Or, would you like to control the custom menu options with a privilege? How about setting up custom menu options to exist by module on various menu pads, such as the Transaction or Print menu? If the answer to any of these questions is yes, then you need the Customer Menu Enhancer!

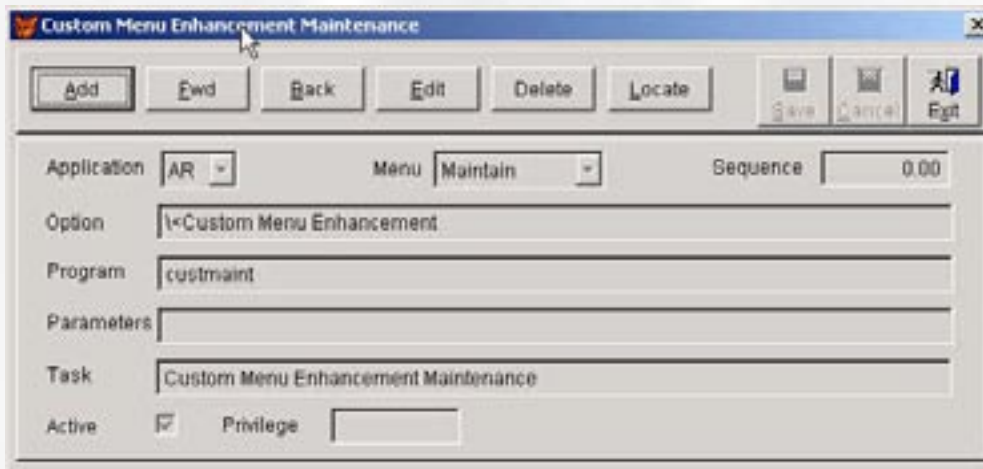

## Features

- Virtually unlimited custom menu options.
- Define a custom option, by module, to Transaction, Maintain or Print menu pads.
- Create and assign custom privileges to restrict user access.
- No ACCPAC source requirement—no source code is modified.

*“I no longer have to pick and choose which custom routines I’m going to place on the menu—with Custom Menu Enhancer, I can fit all of them—with privileges, too!”*
