

Item Description Extender (Pro 5, 6, 6.5, 7.x VFP, 7.x SQL)

If your item descriptions are longer than the 60 characters allowed by Pro Series, then this is the product for you!

Features

- Utilizes the Item Note memo field for an extended description.
- Information entered in the item note memo is then imported into the line item notes field during sales order entry.
- Extended description prints on the Sales Order, Packing Slip and Invoice.
- All other reports continue to use the original item description.
- Automatically works in Sales Order and Invoice Entry.
- Purchase order version available as well.
- Excellent for holding warranty information.
